

ICA and ICCM Advanced Certification in Governance, Risk and Compliance

Discover the fundamentals of regulatory compliance and why it is a real benefit, both to your organisation and industry.

You will gain an improved understanding of how excellent compliance management protects your firm, as well as enhances its competitive advantage, including how to maximise the use of new technology.

As the world of compliance changes at an ever-increasing pace, this course gives you the specialist knowledge and practical skills to manage regulatory risk both now and in the future. This course is awarded by the International Compliance Association and ARPA.

International Compliance Association

The International Compliance Association (ICA) is the global professional membership and awarding body for regulatory and financial crime compliance professionals. Our ongoing commitment to our students and alumni is unwavering; we provide a wealth of knowledge, tools, resources and practical support to compliance professionals at all stages of their career. Our vibrant community of specialists, regulators and practitioners looks to the ICA for inspirational and unparalleled professional development to meet their demands and challenges in an ever-changing environment. All training that leads to the award of ICA qualifications is delivered by the International Compliance Training Academy.

Asia-Pacific Risk Professionals Association (ARPA) was established in the Hong Kong, Special Administrative Region of China, in November 2016. As the Council Member Institution of Global Banking Education Standards Board (GBESTB) as well as the MOU cooperater of International Compliance Association (ICA), ARPA has offered certifications, education programs and consultancy services in the fields of risk, compliance management and internal control for financial institution and industry professionals. ARPA aims to research, develop and promote educations, technologies and best practices along with regulators, international organizations, and education institutes in Asia-Pacific region and worldwide.

What will I learn?

- Why do we need regulation and how has it changed over time?
- What do we need to understand about regulation?
